

2nd Annual Energy Efficiency Charrette

Gathering Information and Recommendations from Environmental Stakeholders of Austin, Texas

The first Energy Efficiency Charrette held in April 2006 was very successful, and now we want to continue the momentum. At last year's event, Austin Energy received more than fifty recommendations for energy efficiency initiatives. Most of those recommendations have already been implemented, or are in the works. We value the input of our environmental stakeholders, so we want to offer you another opportunity to share with us your ideas for energy efficiency programs. Austin Energy will be playing a major role in implementing the Mayor's Climate Protection Plan for Austin, and we are counting on you to help us achieve these ambitious goals.

Please make your plans now to attend the 2nd Annual Energy Efficiency Charrette on May 10th, 2007. RSVP's are required, so please contact Lyn von Roeder at 482-5367, or via email at lyn.vonroeder@austinenergy.com.

May 10th, 2007
4:00 pm – 8:30pm
RSVP Required
